**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Response to Amendment***

In response to Applicant's Amendment received December 6, 2004, claims 1-35, 40-71 have been canceled. New claim 72 has been entered. Claims 36-39, and 72 are pending.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 36, 37, and 39 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by DE 3743970 A1 to Brachmann et al.

Claim 36:

Brachmann et al. discloses an elongated sheet of light gauge metal from which one or more truss chord members may be formed, said sheet comprising along the length thereof one or more pairs of opposing notches (adjacent 6, Figure 1), the portion of said sheet between said opposing notches forming apertured portions of reduced width.

Claim 37:

Art Unit: 3635

Brachmann et al. discloses an elongated sheet of light gauge metal wherein said one or more apertured portions include a grid of apertures comprising two or more rows of spaced apart apertures, as best illustrated in Figure 1.

Claim 39:

Brachmann et al.'s grid of apertures may include at least twenty spaced apart apertures.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 38 is rejected under 35 U.S.C. 103(a) as being unpatentable over DE 3743970 A1 to Brachmann et al.

Claim 38:

While Brachmann et al. discloses sheet of metal with a grid of apertures, the length of the grid is not specified. However, the length of the grid is considered a matter of obvious design choice to one of ordinary skill in the art and depends upon the application. Therefore, Brachmann et al.'s sheet metal with grid of apertures may be at least six inches long.

***Allowable Subject Matter***

Claim 72 is allowed.

***Final***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
